## TWO ROUTES INTO EDMONTON

Surveys Have Been Made of Crossings at Clover Bar and Ninth Avenue—Prairie West Division Completed

It was learned on reliable authority by the Bulletin today that the Grand Trunk Pacific survey into the city of Edmonton has been completed, and that two possible routes, completely delineated, are already before the engineering chiefs of the railway in Montreal for consideration and final choice.

The entire route of the road from Edmonton east to Portage La Prairie has been finally located and cross-sectioned, except for a twenty-mile piece about 100 miles east of this city, which was left over until next spring through some misunderstanding between a couple of the survey parties as to where their divisions ended.

East of the city, between here and Saskatoon, the only party now working is a party of men who are locating stations and side-tracks at what will be the towns when the railway is built.

The final survey of the Grand Trunk Pacific is now so far completed that taken in conjunction with the Montreal despatch, announcing that tenders will be called for for the prairie west division and general Manager More's telegraphed statement that he would be ready to meet the council in the early spring, leaves not the slightest shadow of doubt that the entrance to Edmonton will be effected by either one of two routes, the Clover Bar crossing or the high level bridge and Ninth avenue.

The final location of the Grand Trunk Pacific between Saskatoon and Clover Bar has been all completed, the plans have been accepted by the head office in Montreal and will be open to the inspection of contractors in that city before the end of next month.

Speaking in general terms the route from Saskatoon is in a north-westerly direction, past Muddy Lake, Maniton Lake, Birch Lake and south of Beaver Lake and from there in a more northerly direction to the North Saskatchewan at Clover Bar.

From this point west the two possible routes into Edmonton diverge. One provides for a crossing at Clover Bar and the other for a crossing at the Hudson's Bay fort in the city and entrance into the city via Ninth avenue.

The Clover Bar route, which is the one considered by those acquainted with the work done as the most likely has not been surveyed into or through the city, but ends east four miles east of the corporation limits. As far as the crossing is concerned, however, the work done is completed. The exact location of the bridge has been laid down by the engineers and most comprehensive surveys made providing for a cement and steel structure nearly 2,000 feet long. Across the river, on the north side, the line has merely been carried out of the valley and headed for Edmonton, with the original intention of entering the city to the north of the C.N.R. station and yards.

The Ninth avenue route on the other hand, has been fully surveyed. Following the south side of the Saskatchewan it is laid out right through the heart of the town of Strathcona, south of the Calgary & Edmonton station, and on westerly to a point opposite the "Big House" of the Hudson's Bay Company. From here the crossing is to all intents and purposes, identified with that laid down by the C.N.R. for the high level bridge, by which it is intended to bring the C. & P. into the city, leaving room for the supposition that both roads will cross in the same bridge.

On the Edmonton side the survey follows Ninth avenue due north, crossing the Canadian Northern track and

## NEW SQUADRONS FOR ALBERTA

Edmonton, Strathcona and Port Saskatchewan Will be Headquarters for Squadrons

Ottawa, Dec. 27.—The Militia Gazette says: The disbanded 48th "C" squadron, Calgary, is authorized. The organization of three squadrons is authorized, the headquarters of "A" squadron being Edmonton, "B" squadron, Strathcona, and "C" squadron Port Saskatchewan.

## EIGHTY THOUSAND ARMED INSURGENTS

St. Petersburg, Dec. 28.—Eighty thousand armed insurgents from the Baltic provinces have crossed the railroad between Riga and Pskoff and are in the country in alliance with fires of burning residences. The insurgents who are well armed, have a battery of machine guns and a battery of field guns and are in the region to the Lithuanian Republic. Insurgents reported that Pskoff with nothing but hand grenades and to escape with their lives.

A despatch from Pskoff on Dec. 26th says the armed forces who crossed the line of railroad after burning and pillaging estates, and tearing down images and other relics in the churches retreated to the eastward and that the troops are pursuing them.

## HAS C. N. R. BOUGHT WETASKIN WIN BRANCH

Wetaskin, Dec. 28.—A Canadian Pacific survey party left here today to join the party now surveying along the proposed route west of this town. These parties will probably remain out all winter and the work will be pushed forward with all possible dispatch. It is reported here on good authority that the Canadian Northern have bought out the C. & P. branch running east from this town and that they will build west from here next year to the coast via the Tailhook pass. It is said the deal was closed yesterday.

## THE TELEPHONE PROBLEM

The improvement and extension of the telephone system will require solution at the hands of the city council for 1936. The matter has received some attention from the aldermen during the present year but no definite line of action has been decided upon and the question will be handed forward practically an open one for the consideration of their successors.

The moral to be drawn from the present and prospective expansion of the city's commercial interests is that this solution should not be unnecessarily delayed. As a factor in the life of the business community the telephone system has long been recognized in Edmonton as of vital importance. By facilitating the discharge of business the system has contributed in no small degree to the development of business enterprises and the increase of the city's commerce. With the rapid growth of the city now taking place and the consequent expansion along every line of commercial activity the sphere of the system as a local utility is broadening daily and to meet this larger opportunity it will be necessary during the coming year to make very considerable extensions of the system within the city. These extensions will involve the expenditure of a large amount of money and should if possible in the interests of economy be so made that any future change found necessary in the nature of the system will not render them valueless or inefficient.

But it is felt that the telephone system can become more than a convenient channel for the discharge of local business; that it can be made an active factor in the creation and direction of the district trade which is the hope of the local wholesaler and in a measure of the business community generally. To enable it to play this part it is generally conceded necessary to "scandalize" the system, that direct connection may be made between local instruments on "c" lines and connecting systems. This proposal has also been made to abolish the present "manual" method of operation by the installation of an automatic system. These changes, if understood, would involve the expenditure of a large sum and would be so radical in nature that the present system would be practically replaced.

As the city therefore is confronted with the pressing necessity of making large extensions to the system both in the city and throughout the district and also with the question of the advisability of radically altering the entire system to make it capable of fulfilling the requirements of a up-to-date service. Economy and efficiency demand that the latter problem be first solved and the new council should direct their attention to the matter early in the year.

## OPTIMISTIC OVER THE H. B. RAILWAY

Major Moodie Talks in Winnipeg of  
the Benefits the Line Would  
be to Commerce

Major Moodie, of the N. W. M. P., who is responsible for the maintenance of law and order in the vast territory contiguous to Hudson Bay, and also in Ungava, was a visitor in Winnipeg this week. He was accompanied by his wife.

When seen by a reporter the major said that he arrived in Newfoundland on November 28, after a stay of two years in the northern wilds. Mrs. Moodie was his companion during the solitary exile, and both of them declare that they enjoyed the experience very much.

Major Moodie said that the principal thing of interest in connection with what he learned of the Great Lone Land, is that the Hudson Bay water route is practicable for four months in the year. During this period, he says, ships can ply to and fro between Churchill and Great Britain. He would not be surprised if Messrs. Mackenzie & Mann had the railway to Churchill completed in two years, as he certainly expected that it would be built in three years. Messrs. Mackenzie & Mann would probably commence construction next year over the line for which they had a charter. Of course, said the major, "I cannot speak at all authoritatively about what they intend to do, but this is what I expect will happen."

In regard to the work necessary to be done before commerce will cross the northern wilds, and on to the Atlantic over the waters of the Hudson's bay, the major said more was necessary than the mere building of a road from the prairies to Churchill. The roads of the bay need to be charted. The present charts are very unreliable. It will also be necessary to erect light houses, and install all the necessary aids of navigation. At Churchill, which is the only feasible port, it will be necessary to erect large wharves from the river bank out to the deep water.

Major Moodie does not think that the Hudson Bay region will ever be of great commercial importance. The port at Churchill, when it materializes, will not be a town or city. Its population will consist only of terminal employees, dock laborers and officials in connection with the railway and steamship line. The buildings will, of necessity, be mainly railway structures, elevators, etc., and the dwellings of employees.

In regard to the work to be done on the Hudson's Bay route, Major Moodie says that it will be necessary that they be constructed on different lines than those of ordinary ships. They will have to buffet ice to a certain extent, and this fact will have to be taken into consideration by the builders.

Major Moodie and Mrs. Moodie both speak highly of the Esquimaux of Ungava. They declare them to be very bright and intelligent, more so than the ordinary Indian. They are honest, industrious and susceptible to civilization.

Asked as to the lack of communication with the outside world, Major Moodie said that they were thirteen months without any tidings. In spite of this, both he and Mrs. Moodie enjoyed their stay in the northland, and are now looking forward with pleasure to their return some time next June.

Major Moodie was for twenty-five years a resident of the Northwest in connection with the mounted police. In 1897 he surveyed the route from Edmonton to the Yukon, which is now being opened as a wagon road. He is also a veteran of the South African war. He and Mrs. Moodie are going to different points in the west, and will spend the holidays with friends. His present trip is not in connection with anything official. Major Moodie is enthusiastic over the proposed Hudson's Bay railway and ocean route. "It will save 2,000 miles of rail, and besides provide a shorter water route," was his parting dictum.

C.N.R. PASSENGER SERVICE  
H. Sainford, C.N.R. general traffic agent has issued the following circular.

Winnipeg, Dec. 18.—The Canadian Northern Railway Company today announce the inauguration of a through passenger train service between Edmonton, Lordminster, Kamsack and Winnipeg. The train from the West arrives at Winnipeg at 1:30 p.m. making close connection with the Northern Pacific train leaving for St. Paul and Minneapolis at 1:40 p.m., giving passengers an option of continuing their journey if they wish, or stopping off till the following day at Winnipeg.

The Northern Pacific train service is first class, equipped with Pullman sleepers, dining cars and comfortable day coaches making connection at St. Paul, Minneapolis, with trains for Duluth, Chicago, Detroit, New York, etc., all southern cities, including California and Pacific coast points. Special arrangements for checking baggage through to destination. Also through coupons to all points in Ontario, the West, Maritime Provinces and for all Atlantic steamship lines.

BOYS' BRIGADES.  
The Boys' Brigades of the city are making good progress these days. The Presbyterian church brigade, recently re-organized, is now holding regular drills on Thursday evening of each week. As yet the membership is not large but is increasing each week. They will parade for drill tonight at 7:30, fatigue party appointed last week to be present at 7:15. All Scouts' Boys' Brigade have progressed so far as to have their uniforms and rifles already ordered. These are expected to arrive from London, Eng., shortly. The uniforms will be of the usual Brigade pattern, with round pill-box cap. The rifles will be wooden dummys to be used for drilling purposes only.

## HORRIBLE CRUELTY TO HELPLESS NEWSBOYS.

The Bulletin put it all over the  
Journal yesterday afternoon, and  
once more proved itself the greatest  
newspaper in the great Northwest.  
This time it was on the hockey ice,  
and the bunch that did it was the  
circulation agents of the great even-  
ing daily. The junior journalists  
had no rink, but such a mere trifle  
as that did not jar their equanim-  
ity. Down in the valley there is a  
place where the water pipe burst  
recently and flooded the flat, and  
the newsboys immediately pro-  
claimed this a rink for the purposes  
of their agreement—or disagree-  
ment—and went at it. There was no  
doubt about the result. The Bul-  
letin kids jabbed them in the slats,  
and chucked them in the solar  
plexus, and jarred their dia-  
phrams, and just naturally put it  
all over them, and then danced on  
their prostrate forms with No. 7  
skates. It is a shame to tell the  
people that they body-checked the  
Jopling gang, and threw them on  
their car; and one big bully, of  
nearly seven years of age, offered to  
go one better and take a fall out  
of anything in the Journal staff,  
from the telegraph editor to devil,  
just to show that he was an all-  
round athlete. The result, as near  
as could be ascertained, when the  
fragments were gathered up, was 5  
to 0 in favor of the Bulletin, but  
there might have been several other  
stray counts swept out with the de-  
bris when the wreckage was cleared  
away. The society for the preven-  
tion of cruelty to newsboys will  
probably take the matter up, and  
save the circulation agents of the  
Journal from further humiliation.

#### THE SASKATCHEWAN ELECTION (Toronto Globe)

At the moment of writing it seems reasonably clear that the choice of Mr. Walter Scott as Premier of Saskatchewan has been sustained by the electors. Mr. Haultain made a good fight. He had many advantages. He is the best known public man in the west, has a good record, is a shrewd politician and an energetic campaigner. That Mr. Scott should have succeeded in defeating such a man is a tribute to the judgment with which he conducted the contest. Mr. Haultain had the great advantage of having nothing to do but attack. It is not difficult to find matter for long-sided criticism in any large measure like the creating of a new province. Withholding the lands from provincial control, for instance, affords opportunities for misrepresentation, that are the food upon which Oppositions feed. Towards the close of the campaign too, the Government prospects were undoubtedly injured by the ill-advised interposition of Archbishop Langevin. It is the most unbecome to pretend, as some of the Conservative journals are doing, that the Archbishop's letter helped Mr. Scott. When they say that it is with their tongue in their cheek. It is quite pathetic to observe the indecision on the part of these modifiers of public opinion whether to bolster the electors of Saskatchewan as a lot of heroes or a batch of corrupt rascals. The two new provinces have now fairly started on their way, and the fact that they have suppressed agitators and race and creed agitations augurs well for their future. The west seems fully determined not to import our old eastern hates and animosities. The free prairie air is so favorable to their growth or dissipation. Nothing could be more barren than to waste the energy of its rulers and embitter public life over matters that are not pertinent or of immediate importance. The two new provinces will have the sort of schools that are best suited to the genius and temper of the people. They have now the system with which they have long been familiar. They evidently feel no hostility towards it, and it is sound advice to see that existing institutions should get a fair trial before any attempts are made to try something else.

#### YORK COUNTY LOAN CO MAY PAY 90c

Toronto, Dec. 27.—According to the statement of the solicitor and the Government investigator, the total liabilities of the York County Loan Company to shareholders amount to \$3,173,709 and assets \$2,100,000. The deficit is therefore \$1,073,709 or one-third of the total indebtedness. With the other allowances mentioned the deficit would probably be reduced to \$1,030,000. It is therefore assumed that the company pays only 50 cents on the dollar.

# SUNLIGHT SOAP

Wash oilcloths and linoleums with warm water and Sunlight Soap, rinse clean and wipe dry. The colors will be preserved and the surface unharmed.

Common soaps fade the colors and injure the surface. Sunlight Soap cleans, freshens and preserves oilcloths and linoleums.

Sunlight Soap washes clothes white without injury to the most delicate fabrics, or to the hands, for it contains nothing that can injure either clothes or hands.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way (follow directions).

Equally good with hard or soft water.

## SALVATION ARMY SETTLEMENT SCHEME.

Adjutant Wakefield, of the Salvation Army, has been appointed as officer in charge of a district extending from Brandon to Edmonton in connection with the S.A. immigration scheme. He is at present in the west looking over the ground. It is the intention of the Salvation Army officials to send out some ten thousand emigrants from England next year. These will be scattered throughout the western provinces. On Friday evening Commissioner Coombes, in command of the S.A. forces in Canada, passed through Regina on his way east. He had been on a visit to British Columbia where he had been making arrangements in connection with immigration.

## MOTORIOUS SWINDLER CAUGHT IN CALGARY.

Calgary, Dec. 27.—Despatches from Philadelphia are to the effect that Latimer, who is under arrest, has been charged with defrauding a woman in Philadelphia, is a fugitive from justice, a notorious swindler, and is under indictment both under Federal and State jurisdiction. It is stated that Latimer was manager of the Provident Investment bureau which swindled customers out of \$100,000 by pretending to speculate in cotton.

## STUART'S MAJORITY REMAINS UNCHANGED.

Calgary, Dec. 27.—The last of the Gleichen election case took place today, when the appeal against the decision of the returning officer was up before the judge. After the case was brought up the Conservatives abandoned their appeals, and the Liberals did likewise. All disputed votes were counted, and the result was unchanged. C. A. Stuart retaining his majority of 22.

## C.P.R. EMPLOYEES WON OUT.

Montreal, Dec. 27.—The Canadian Pacific has come to an agreement with the trackmen and foremen by which the company accedes to an increase of 5c. per day in wages of all trackmen east of Fort William, and 10c. per day in the wages of foremen. The increase will mean an increased outlay of \$175,000 a year on the wages account.

### For Family Colds

A reliable cough and cold cure should be always in the house ready for use the moment the first symptoms appear. It is always easier, cheaper and better to check a cold in the very beginning.

It is safer, too. Shiloh's Consumption Cure, the Lung Tonic, has been tested for thirty-three years, and tens of thousands of homes in Canada and the United States today are never without it.

A dealer writes: "Shiloh's Consumption Cure is the best remedy for Coughs and Colds on the market. Once used, my customers will never go without it." If it were anything but the best would this be so? Try it in your own family. If it does not cure, you get back all it cost you. We take all the chances. Neither you nor your dealer can lose. Isn't that fair? 25c. is the price. All dealers in medicine sell.

## SHILOH

### LISTEN

I will say to the public in general I am now ready to treat any and all kinds of diseases, and I defy any one to bring anything to my office that I cannot relieve and cure if my advice is strictly complied with, providing it is a possible curable case. It matters not of how long standing or how hopeless the case may seem; those cases are preferred.

All I ask is to have you give me a chance to substantiate my assertions.

I also have bathing facilities for the public.

## Our Sale and Want Column

Two Lots near C. N. R. \$750 each; terms.

One lot near Alberta Hotel \$900; terms.

A Soap—New house, seven rooms, just finished, \$1800; terms. The lot is high and dry.

On Jasper avenue, several splendid twenty-five, thirty-three and fifty feet frontages, and close to the river. The prices are low and terms. Sure sellers in the spring at well advanced prices.

Special offer—25 feet frontage near Post Office on Jasper avenue, for \$10,000. Good terms. This will be picked up quick.

First street. Several good propositions at \$200 per foot frontage, terms.

Warehouse sites. Facing the C. N. R. 2 lots, 150 foot frontage on Mackenzie for \$8,000, top east. Fourth street and also two lots 150 foot frontage on Mackenzie for \$5500 top Fifth street.

Wanted. Scrip for 240 acres, at once. Reasonable price paid and all in cash.

For cash only. We can sell you 20 lots on the Norris estate for \$1350 each in. It is impossible to get anything to bear this proposition in Edmonton real estate market. Only fancy—\$65 per lot. Owner must have money by 21st December, hence the sacrifice.

Here is another good thing: Two high and dry lots across the C. N. R. track for \$750 each, and terms. Have you noticed the rise lately across the track. We have several single lots there at \$750, terms.

Special attention. Two lots close in, on the River Lots for \$750, very easy terms. These are worth \$900.

Several lots on First, Second, Third and Fourth streets, West End, north of Jasper, from \$2000 up to \$4500 each. All good safe buying and sure of increase in value before many months.

Improved farms. There is sure to be a rise of values in the spring. We have several snags at present in Stony Plain, Clover Bar, and Sturgeon. What we cannot show you in good value will be hard indeed to find from \$10 to \$40 per acre and close in to Edmonton City.

Unimproved farms. We have several large tracts of country lying along the new railway line from \$6 per acre and easy terms. The best of deep black loam and clay subsoil and partly clear of brush, plenty of good water.

Continued from Page One.

will undoubtedly be let at the same time as the contracts for the main line.

Before General Manager Morse arrives in the city to sign up with the city council these contracts for the entire line from Portage La Prairie to Edmonton will undoubtedly have been let with the exception of the six miles directly adjacent to the city.

The company's intentions in the matter are explained by the following despatch from Montreal: President C. M. Hays, of the Grand Trunk Pacific, made the important announcement that the section of the Grand Trunk Pacific between French Woodhall, the western end of McDonald and McMillan's contract, and Edmonton, the capital of Alberta, will be placed under contract within sixty days. This means that about 770 additional miles of the new transcontinental highway will be covered by a large force of men as soon as the frost is out of the ground and the company's rails will connect Portage La Prairie and Edmonton by the early fall of 1907.

It is also understood that the commissioners who have charge of the construction of the government section of the work will ask for tenders within a few weeks for that part of the work between Lake Winnipeg Junction and the city of Winnipeg. President Hays, when asked regarding the announcement made by Premier McBride of British Columbia that Tack's Island, Kien Island, had been definitely selected as the western terminus of the Grand Trunk Pacific, said: "It cannot really be said that a choice has been officially made as yet. We secured holdings at about three different localities, but our surveys through the prairies and the western slopes will have to be terminated before we can officially announce that the terminals have really been selected."
